

# Immunisation given and historical

Clinician

**Note: When recording qualifier information regarding the immunisation given, at least one of these is required:**

- Dose (this course)
- Dose number

The following are not required to transmit the immunisation to the AIR, however, should be recorded if details are known:

- Route and site
- Performed at <encounter place> \* \*\*
- Administered overseas
- Vaccine batch
- Serial number
- Vaccine expiry date

\* If the immunisation was performed at your health service then tick.  
 \*\* If the immunisation was performed elsewhere in Australia then leave unticked and the immunisation will be sent to the AIR as historical.

Does the patient biographics meet the following requirements?

- Patient name: Aphas, hyphens, apostrophes, numeric and spaces only.
- Patient: Date of Birth
- Patient: Gender
- No Po Box number or 'c/-' in line 1 or 2 of the home address field.
